CAREER OBJECTIVE

Dedicated and detail-oriented Civil Engineer with a strong foundation in structural design, project management, and site supervision. Passionate about developing sustainable and efficient infrastructure solutions. Seeking a challenging role at NGCP to contribute engineering expertise in power transmission projects.

EDUCATION

Bachelor of Science in Civil Engineering

Phinma-COC, Iligan City, Philippines

March 2021

Relevant Coursework: Structural Analysis; Geotechnical Engineering; Construction Materials & Methods; Hydraulics & Water Resources

Distinctions: Cum Laude

EXPERIENCES

Project Manager (Civil Engineering), Infrastructure Development Unit

Power Dimension Incorporated

January 2022 – January 2023

- Designed and analyzed structural components for various projects
- Managed construction schedules and ensured compliance with safety regulations
- Conducted site inspections and collaborated with project teams to enhance efficiency

Project Engineer, Project Management Office (PMO)

Esca International Incorporated

December 2023 – December 2024

- Assisted in project planning and material estimation
- Utilized AutoCAD and SAP2000 for structural design and drafting

- Coordinated with contractors and suppliers to ensure project milestones were met
-

ACTIVITIES, AFFILIATIONS, & LEADERSHIP

President, Civil Engineering Society, Esca International Incorporated August 2024

Committee Head, University Engineering Expo, March 2023 -

Member, Philippine Institute of Civil Engineers (PICE) Student Chapter, June 2023

Organizer, Structural Design Seminar, October 2022

Volunteer, Disaster Resilient Infrastructure Project, June 2022

SKILLS AND INTERESTS

- Proficient in **AutoCAD**, **SAP2000**, **STAAD.Pro**, and **ETABS** for structural analysis and design
- Strong knowledge of **geotechnical engineering and construction materials**
- Project management and site supervision experience
- Excellent communication and leadership skills
- Fluent in **English** and **Filipino**

AWARDS AND LICENSES

PUBLICATIONS, RESEARCH, AND EXTENSION

- **Certified Safety Officer (SO1)**, BOSH Training, 2023
